

Risk Assessment Form (3)

Required for projects using hazardous chemicals, activities or devices and microorganisms exempt from pre-approval. Must be completed before experimentation.

Student's Name(s) _____

Title of Project _____

To be completed by the Student Researcher/Scientist: (All questions must be answered)

1. List/identify microorganisms exempt from pre-approval and all hazardous chemicals, activities, or devices that will be used.

Form 3 may be required for projects involving hazardous chemicals, activities or devices. If the project's SRC determines Form 3 is necessary, it must be completed prior to experimentation.

All Form 3 fields must be completed.

2. Identify and assess the risks involved in this project.

Outline project risks. For a project involving human participants, an example of a potential study risk could be exposing an individual to a research scenario that makes them uncomfortable.

3. Describe the safety precautions to be taken during the project.

4. Describe the disposal procedures for hazardous materials.

5. List the source(s) of safety information.

To be completed and signed by the Designated Supervisor (or Qualified Scientist, when applicable):

I agree with the risk assessment and safety precautions and procedures described above. I certify that I have reviewed the Research Plan and will provide direct supervision.

Designated Supervisor's Printed Name _____

Position & Institution _____

Experience/Training as relates to the student's area of research _____

Form 3 must be signed by the Designated Supervisor (Adult Sponsor).
